PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence and Machine Learning with hands-on experience in Web Development through professional internships and academic projects. Skilled in HTML, CSS, JavaScript, React.js, Python, Node.js, MongoDB, and MySQL. Experienced in developing responsive web applications, CRM modules, dashboards, backend services, API integration, database management, and lead management. Strong problem-solving and analytical skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend: Python, Node.js, JavaScript

Databases: MongoDB, MySQL

CRM & Web: CRM, Lead Management, Dashboard Development, REST API Integration, CRUD Operations

Tools: Git, GitHub, VS Code, Chrome DevTools

INTERNSHIP EXPERIENCE

Web Development Intern | Codevirus Private Limited

Currently Working

- Developed and maintained responsive frontend interfaces for CRM applications.
- Worked on CRM dashboards for managing and monitoring business data.
- Developed and integrated backend functionality for CRM modules.
- Managed databases for storing and retrieving customer and lead information.
- Implemented and managed lead management features, including lead tracking and status updates.
- Integrated APIs to connect frontend applications with backend services and databases.
- Worked on data management, CRUD operations, search, filtering, and dashboard-related functionality.
- Debugged issues and improved existing CRM features for better performance and usability.

Full Stack Developer Intern | ANTI.AI

Nov 2025 – Jan 2026

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and React.js.
- Created dynamic and interactive web interfaces using React.js and JavaScript.
- Developed backend functionality using Node.js and JavaScript.
- Designed and managed databases using MongoDB and MySQL.
- Connected frontend applications with backend services and databases.
- Worked on real-world development tasks and solved programming and coding problems.
- Used Git and GitHub for version control and project management.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Machine Learning

Aug 2022 – Aug 2026

Panipat Institute of Engineering and Technology, Panipat, Haryana | Affiliated with Kurukshetra University, Haryana

ACADEMIC PROJECTS

AI Jarvis | Python, Machine Learning

- Developed an AI-based virtual assistant named Jojo using Python.
- Applied machine learning concepts to create an interactive assistant application.

Virtual Assistant | JavaScript, Web Speech API

- Developed a voice-activated virtual assistant using JavaScript and the Web Speech API.
- Implemented voice-based commands for tasks such as opening YouTube, retrieving time information, and generating responses.
- Achieved reported speech recognition accuracy of approximately 98%.

Personal Portfolio Website | React.js, Vite, Tailwind CSS

- Built and deployed a responsive personal portfolio website showcasing projects, skills, and experience.
- Implemented a resume download feature and an AI-Powered CRM & Sales Intelligence Dashboard case study.
- Deployed the application on GitHub Pages with a build-and-publish workflow.

CERTIFICATIONS & TRAINING

- Full Stack Development with AI Certification
- Generative AI Certificate
- DSA with Java Certificate
- ANTI.AI Internship Offer Letter
- PW Internship Offer Letter
